“

The Alumni Convening was designed to further ignite and inspire the genius we have yet to birth by affirming the genius we already manifest. It is clear by the quality of experience that Surge both believes in our collective genius while simultaneously holding our history and humanity. I am better just by being in this space. The icing on the cake is that my daughter who was traveling with me gets to see me surrounded by excellent Black and Brown leaders whose legacy is pointed toward creating pathways for the emerging brilliance of her generation and the ones after her.

Reflection from 2023 Alumni Convening

1 to 10

For **10 years** Surge Institute has diligently been providing a space for educational leaders of color to breathe, think, release, bond, see themselves and be seen.

The outcome is a coalition of leaders that are strong, healthy, focused, energized and transforming the educational landscape as we know it. And now we get to build on this amazing foundation.

Now the real adventure begins.
